Best Practice 02

2022-23

Title: Social, Political and Economic Awareness of Women and Their Empowerment.

1. Goals.

- To empower the women in rural area.
- To create confidence and positive approach among them.
- To create economic independence.
- To develop leadership qualities among them.
- To impart the principle of gender equality.
- To inspire them to participate in Panchayatraj system and hence achieve the target of rural Development.
- To make them aware of their constitutional rights and the laws made to protect these rights.

2. Context:

As our college situated is in rural area, it is necessary to study the rural women and their condition and try to empower them. The most of women of this village are uneducated and they do believe in so called traditions which are the cause of their violence and exploitation. It becomes important to make aware them about the importance of education as well as to bring them in the current education scenario and to try for their empowerment. The rural area women need to understand their constitutional rights and gender equality. The women are facing many problems even today such as early marriages, dowry death, female feticide, health and hygiene. domestic and public violence. The institution tries to make them aware of their rights through our students.

3. Practice:

The concept of the women empowerment is inculcated among women by holding meetings with them in the surrounding villages, in the NSS camp of the college every year. The girl students are guided properly about the various social issues like dowry death, female feticide, domestic violence, sexual harassment, public violence, health and hygiene etc. In our college we have women empowerment cell in action to empower the girls and women of the village. The cell

regularly conducts various programme and activities in this regards. We also have internal complaint committee to tackle the problems of gender issue. The empowerment cell arranges programmes like as Gender equality, women empowerment, human rights , women rights, saving groups for women, Training programme like beauty parlour course, Female feticide, Free health checkup camps, superstition eradication, sanitary pad distribution.

4. Evidence of success:

The women empowerment cell has conducted following activities in the session 2022-23

- Conducted a program on superstition eradication for rural women.
- Completed a project on rural women empowerment through various awareness programs.
- Conducted a workshop on health and H.B checkup of women.
- Conducted a workshop on women safety and security.
- Conducted a workshop on women gathering & Nutrition healthy diet preparation.
- Conducted awareness program on to stop Female feticide.
- Launched Anandi Room

5. Problems encountered:

- Due to lack of knowledge and education, the women of villages do not show their interest to participate in women empowerment programme arranged by the college.
- The women are superstitious and some women do not want to change their social status in male dominated society.
- It is very difficult to enlighten women and to prepare them to fight for gender equality and their rights.
- To arrange women empowerment programme, rallies, poster exhibition, health check-up camp is difficult in the village without the help of Rural Women.
